

**Information Form to accompany soil samples
For EQIP High Tunnel Participants**

Send form to Brad Casar, Homer Soil & Water
Conservation District office: brad@homerswcd.org.

NRCS office you work with: _____

Name: _____

Date: _____

Phone: _____

Email: _____

Sample ID on soil analysis: _____

Recommendation Type needed (conventional fertilizer or
organic inputs): _____

Cropping History

How long has this area been in cultivation?

New this year *Bed size:* _____

2-5 years *Bed size:* _____

5-10 years *Bed size:* _____

10+ years *Bed size:* _____

List main crops grown for the past two
seasons:

Crops to be grown this coming season:

Vegetables *Area:* _____

Berries *Area:* _____

Tree Fruits *Area:* _____

Cut Flowers *Area:* _____

Other _____ *Area:* _____

Irrigation Method:

Hand water

Sprinkler

Drip Irrigation

Fertigation

Additional notes:

Soil Amendment Usage and Plans

List fertilizers, compost types, manure types or
other additions you've made to soils in the
previous three growing seasons (nutrient analysis,
timing of applications, amounts applied and years
applied are all useful information):

List the fertilizer you intend to use in the upcoming
growing season (8-32-16, urea, blood meal, fish bone
meal, kelp, compost, manure,...). Include nutritional
analysis of N-P-K (eg 8-32-16, 0-0-40) of material you
plan to use: _____

List any additional soil fertility and management
concerns you have:
